

CHIC allows instant download of each title once purchased through pay pal. You have two options to purchase a title:

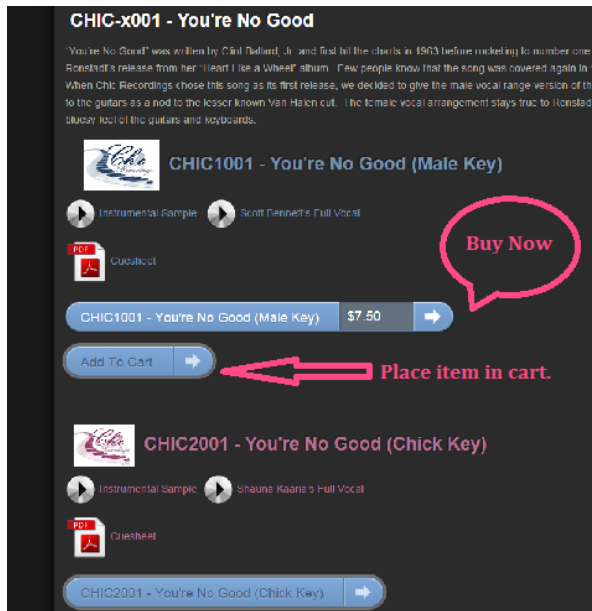

*Buy Now*

Or

*Add to Cart*

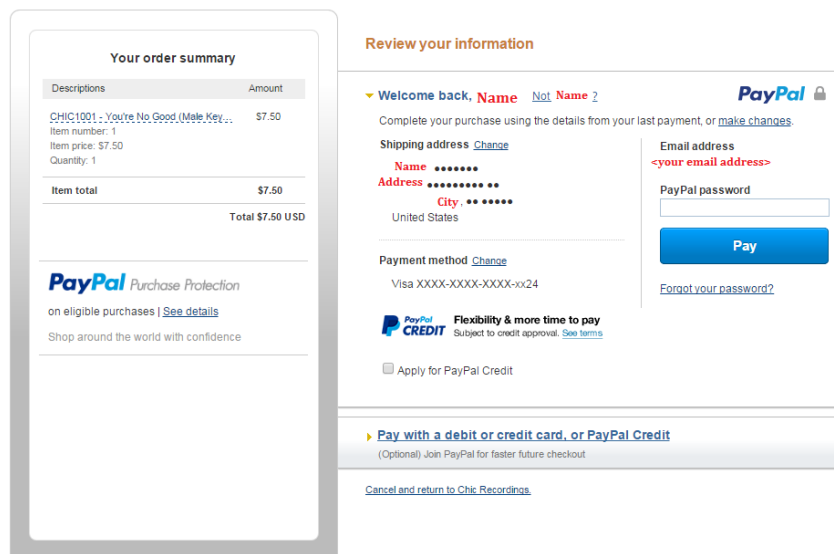

The Buy Now Button immediately starts a PayPal Transaction, while the Add to Cart choice stores your selection until you *Checkout*.

Each title is represented on the site by a single article as the one shown below:

Two versions are offered, and each is sold separately as a .zip file. To BUY NOW, click on the button that bears the title of the tune you want. The PayPal transaction will begin. You should see a PayPal screen similar to this:

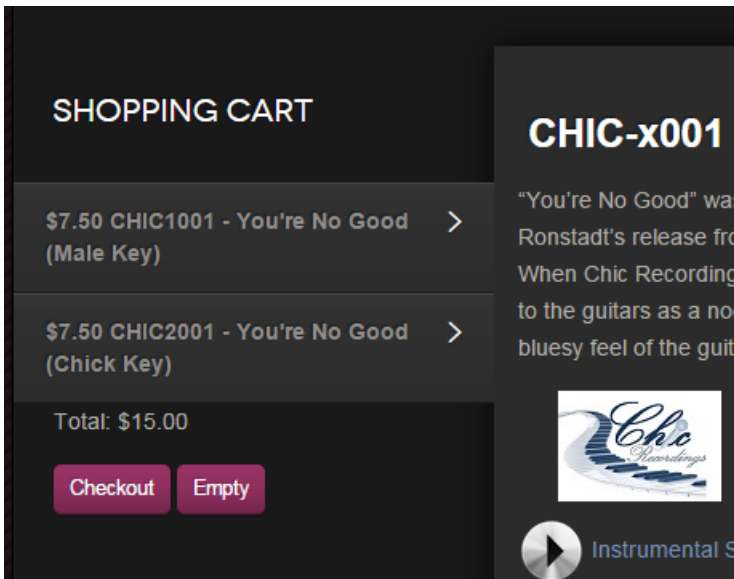

### Chic Recordings

Note that the name and email address associated with your PayPal account will be shown. When the transaction is complete, PayPal will point your browser to a landing page thanking you for the purchase. It will eventually direct you back to the CHIC site. When you return to the item articles, you will be able to download the titles you purchased – provided that YOU HAVE NOT CLOSED YOUR BROWSER. This only works for the current browser session.

PayPal will also send a receipt to the *email address* associated with your account. CHIC will send an email containing DOWNLOAD Links to that address as well. Before purchasing, please be sure that your email Inbox has room for new messages.

The shopping cart is shown in the upper left hand corner of the page:

When you have collected everything you want to purchase, you’ll need to click on the *Checkout* button to start the PayPal transaction. At present, the detail only shows on the CHIC website. On PayPal, you will see “Shopping Cart” listed under details. Check the price for a match. Hereafter, a Cart transaction operates in the same manner of the BUY NOW transaction. PayPal will send you a receipt, and CHIC will send you download links. If you return to the site during the same browser session, you should be able to download them directly from the article pages as well.
